

Water Well Screening

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

The “Well Informed” Texas Well Owner Network (TWON) program is an educational program that gives well owners the opportunity to have their well water samples screened for common contaminants including fecal coliform, E. coli bacteria, nitrates, arsenic and high salinity. The screening of the water samples is followed by a 1-hour explanation of the results, water well protection practices and focuses on wellhead protection and recommendations for remediating well contamination.

Well Informed Screening - May 21 & May 23

- Duval County AgriLife Extension Office: 131 West Main Street, Benavides
- Duval County GCD Office: 231 East Railroad Ave., Benavides
- Pick up sample containers prior to May 21 from above locations
- Sample drop-off 8:00—10:00 a.m. May 21 at above locations

Results & Interpretation meeting:

Thursday, May 23 @ 10:00 a.m.

Duval County GCD Office, Benavides

NETWORK

Funding for the Texas Well Owner Network is through a Clean Water Act nonpoint source grant provided by the Texas State Soil and Water Conservation Board and the U.S. Environmental Protection Agency. The project is managed by the Texas Water Resources Institute, part of Texas A&M AgriLife Research, AgriLife Extension and the College of Agriculture and Life Sciences at Texas A&M University.
